BAŞKENT UNIVERSITY HEALTHCARE GROUP

BAŞKENT Healthcare Group ranks among the largest and most medically advanced hospital groups in Turkey also in Middle East. BAŞKENT consists of 10 university hospitals in six cities (Ankara, Istanbul, Adana, Izmir, Konya and Alanya), 13 dialysis centers and 5 outpatient clinics. With its steadily increasing network, BAŞKENT reaches annually near 3 million patients, thereof around 100.000 inpatient treatments. BAŞKENT possesses about 1.500 beds and more than 8.500 employees. All of our hospitals are located near top tourism places of Turkey, which provides options to our patients to combine their treatment with additional travel.

Contributing to Turkey's educational and cultural advancement since its foundation,

BAŞKENT University continues to provide state-of-the-art service with its primary focus on teaching and research, while meeting all international standards and requirements of competition. Both nationally and internationally, BAŞKENT University is a leader in its field with its high-quality research and education. The highly-qualified academic staff and medical personnel makes us a leading institution in the practice of medicine, scientific publications and dissemination of research results. Research, scientific production, and contribution to society have always been one of our priorities and since our foundation we have been one of the leading universities in Turkey with regard to the number of international scientific publications per instructor.

A strong network of hospitals, an intensive interdisciplinary knowledge exchange among employees and the immediate implementation of innovations, are the core of the BAŞKENT philosophy. Furthermore, the University and Hospitals work as a team to train outstanding doctors and dentists. Numerous doctors complete their post-graduate specialist training at a university level. Top-class care and attention to the patient have priority in nursing and other healthcare profession programs. The high standard of training for junior employees and ongoing staff development are reflected in excellent patient care.

BAŞKENT Healthcare Group has become a reference center for many complicated treatments that require advanced technological expertise and medical experience. Our Transplant (liver, kidney, bone marrow, heart, cornea), Cancer (surgery, radiotherapy, chemotherapy), Cardiac (pediatric and adult cardiology and cardiovascular surgery), Infertility (IVF), Burn Treatment, Ophthalmology, Interventional Radiology, Oral and Dental Care, and Nuclear Medicine Centers are all nationally and internationally recognized referral centers providing a high-quality service with latest technological equipment and highly regarded physicians.

BAŞKENT Healthcare Group has more than 30 years experience in offering first-class medical services to patients from all over the world. Our medical treatment plans are uniquely tailored on a patient-to-patient basis, by combining the best-suited specialist physicians with the leading state-of-the-art facilities for the specific procedure indicated. Furthermore hospitality, trustworthiness and humanity are the cornerstones of our hospital.

Our studies in quality improvement have been continuing since 1997 at Our Hospitals, and in the Practice and Research Centers. The requirements of ISO 9001:2008 Quality Management System Standards are fulfilled in all them and they have been certified by the Turkish Standards Institute (TSE). Furthermore, our hospitals are the first foundation hospitals to acquire the ISO quality certificate.

Consequently, our experience in healthcare sector will give you confidence in high quality and affordable price. Our philosophy is “helping you to feel like home by offering world-class medical treatment”.
